INDUSTRIES

FOR COLORFUL PERSONALITIES

Because you hate to be predictable, we conjured up "Something Else."
A collection of the most popular accent pieces from various Globe groups in 4 effervescent painted finishes. Stormy red (like a spanking fresh painted barn). Sunlight yellow. Mist green—all with contrast white striping. And cloud white striped in pale green.
Here's a powerful decor weapon. To electrify dim corners. Spark dark wallcoverings. And jostle docile rooms out of their complacency.
A specially formulated process, using emulsion vinyl paints, our "Something Else" painted finishes have the same lovely hand-rubbed, glazed antique look as custom-order painted finishes. And because they're applied to the same woods as standard wood finishes, the real wood character comes through in flying colors!
It's all very interesting, really. Just made for those of you who want to do—"Something Else."
